

EXPRESSVOTE

General Election

November 8, 2022

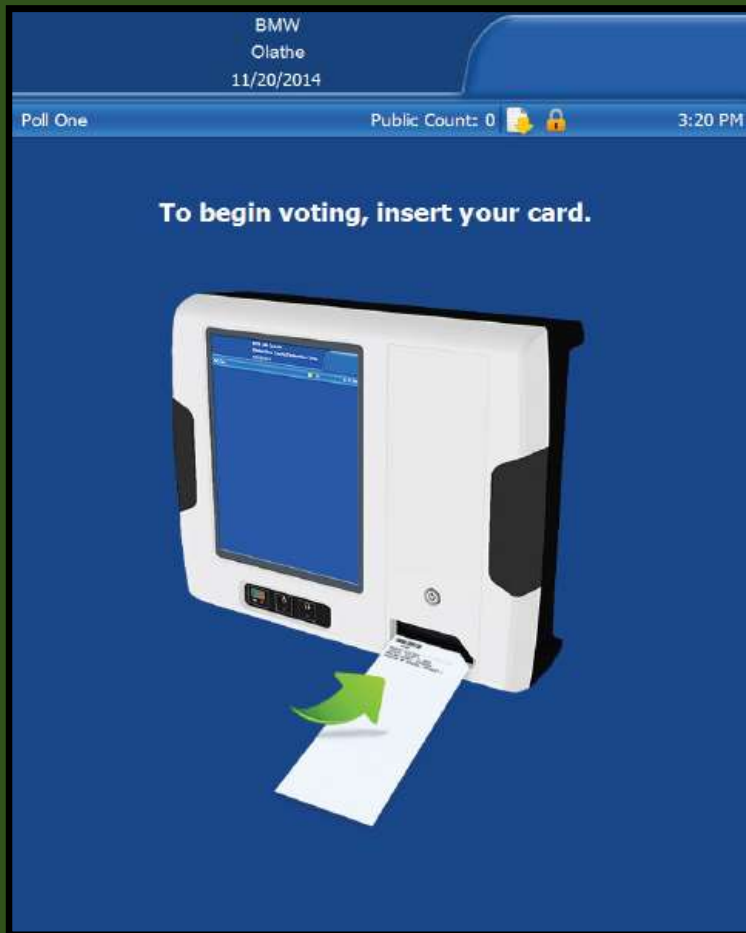

EXPRESSVOTE COMPONENTS

- Black Bag
 - ExpressVote
 - Power Cord
 - Headphones
- Barrel Key

PREPARING THE EXPRESSVOTE

- This is the screen indicating that the ExpressVote has completely powered up and is ready to go.
- Close and lock the access compartment.
- Your ExpressVote is now ready for the day!

NOTE:

Printing the ExpressVote ballot card does not issue a ballot to the voter.

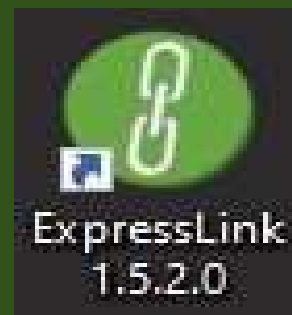

You must first issue the ballot through the Vote Center App on the EIMS laptop, print the label, and attach the label to the back of the Poll Pad ticket.

A decorative graphic consisting of several parallel white lines of varying lengths, slanted diagonally from the bottom right towards the top right, located in the lower right quadrant of the slide.

PRINTING EXPRESSVOTE BALLOT

The ballot issuing clerk will use the ExpressLink software to print the ballot with the appropriate precinct ballot for the voter.

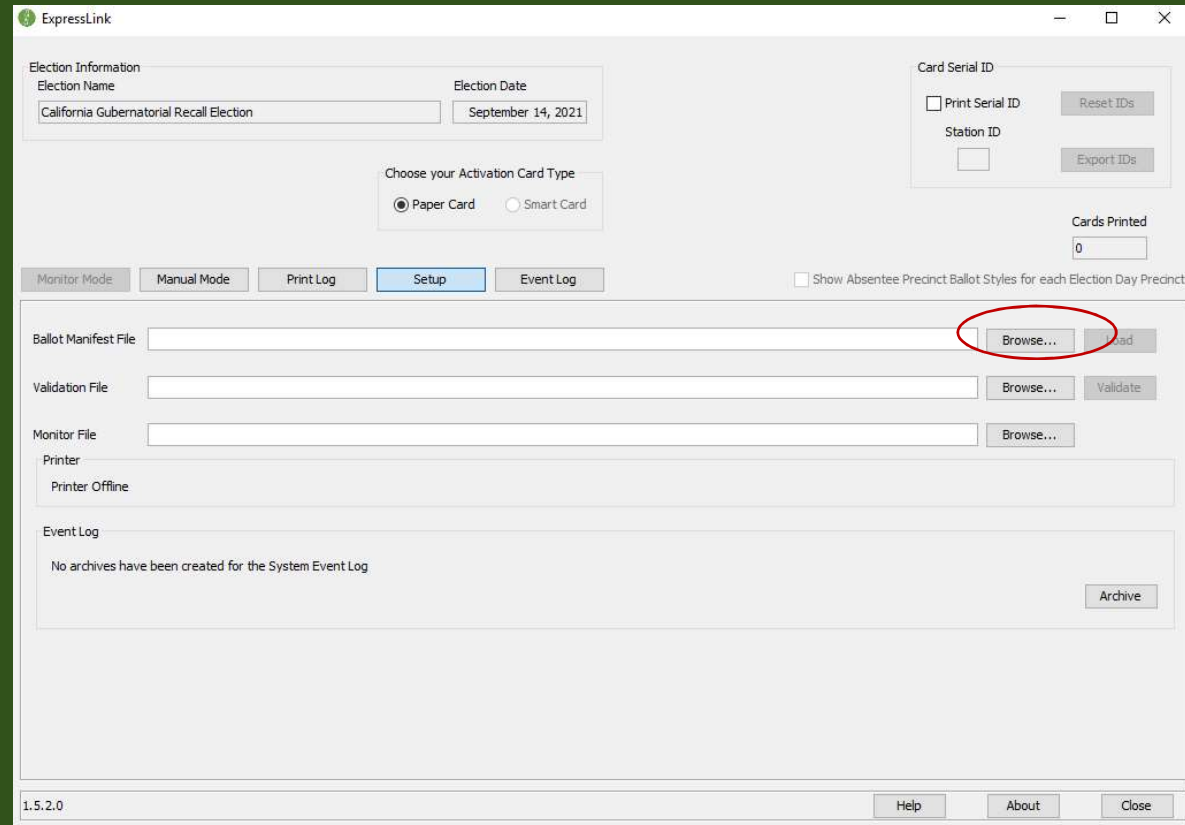

EXPRESSLINK SOFTWARE

On the “Ballot-Issuing Clerk” laptop, double click on the ExpressLink icon. If the software open and there is no Election Name, you will need to load the election information.

Choose “Browse”...go to to the C Drive to find this path:
C:>BOD
Files>BallotOnDemand_Export.ezip. Click on load.

Verify the Election Name at the top –
General Election

PRINTING EXPRESSVOTE BALLOT

- Do not set the sheets of thermal paper for the ExpressVote in direct sun light or near anything with heat. This will mark up the sheet.
- Top bar code is explicitly for the ExpressVote
- Bar codes that are below are to indicate the voters selections.

TROUBLESHOOTING

- If any issues arise while running the voting location please consult with your VAC Coordinator .
